PERFECT FOR BOWEL PROGRAMS

CEO-TWO[®]

Laxative Suppositories

Gain the reliability and confidence you deserve from your bowel program.

Many laxatives and suppositories are not reliable and are unpredictable. Having secondary bowel movements when you least expect it with such products is not at all uncommon.

CEO-TWO[®] Laxative Suppositories work reliably within 30 minutes. These unique suppositories are even self-lubricating, making their use as easy and convenient as possible.

CEO-TWO Laxative Suppositories are a combination of Sodium Bicarbonate and Potassium Bitartrate in a water-soluble Polyethylene Glycol base. The unique name comes from the CO₂ gas that is produced within the rectal ampulla, which creates a reflex stimulation, resulting in an urge to defecate within 30 minutes. Since there is no chemical stimulation to the bowel, there is no cramping. No diarrhea is produced and a second urge to defecate is avoided.

INGREDIENTS

- Sodium Bicarbonate
- Potassium Bitartrate
- Polyethylene Glycol Base

The Enema in a Suppository Form

Use CEO-TWO Laxative Suppositories as part of your bowel program. These unique CO₂-releasing suppositories allow you to control your bowel function and prevent constipation and related problems, such as autonomic dysreflexia. Regain confidence in social and work situations by avoiding embarrassing accidents with CEO-TWO!

- 3 year shelf life
- Reduces bowel program time to under 30 minutes
- Water-soluble formula
- Does not cause mucous leakage
- Self-lubricating
- No refrigeration necessary
- Individually wrapped and easy to open
- Unique tapered shape makes retention easier, providing satisfactory results every time
- Always in stock and ready to ship
