

Beutlich[®]

PHARMACEUTICALS LLC

Since 1954

Capability Statement

www.beutlich.com

Beutlich[®] Pharmaceuticals, LLC has been offering healthcare professionals unique solutions for pain management and preventative care since 1954. We are best known for our family of HurriCaine[®] Topical Anesthetics containing 20% Benzocaine. Since Beutlich introduced HurriCaine Topical Anesthetic into dentistry over 50 years ago, dentists and medical professionals around the world have built better practices by easing their patients' pain.

HurriCaine Topical Anesthetic was the first of its kind and remains the highest quality choice in the dental marketplace. Beutlich offers additional premium products that address challenges in the dental and medical fields.

Core Competencies

It is essential that we consistently meet or exceed our customer's requirements and expectations for the quality, performance, timeliness, and cost of the products we provide. We take pride in the choices we make to use the highest quality raw materials in all of our products.

We ensure compliance with safety and regulatory requirements as follows:

- FDA 21 CFR 211, 820 and 111
- EN-ISO 13485:2016
- Canadian MDR - SOR/98-282
- Canadian NHPR – SOR 2003/196
- MDD 93/42/EEC with extension to MDR Article 120

Differentiators

- We strive to deliver the highest level of product quality.
- We recognize the needs and wants of our customers.
- All of our HurriCaine products contain no dyes or artificial flavoring.
- Sixty-nine years of Industry experience
